Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The first paragraph of the specification was changed to read as follows:

--The present application is a continuation of USSN 10/193,770, filed July 10, 2002, now U.S. Patent No. 6,678,905, which is a continuation of USSN 09/760,195, filed on January 12, 2001, now U.S. Patent No. 6,519,798, and a continuation-in-part of USSN 09/680,259, filed October 5, 2000, now U.S. Patent No. 6,557,198, the specifications of which are incorporated by reference herein.--

In line 1 of claims 17 and 18 "1" has been changed to --5--. This corrects a dependency error in the claims.

The previous Office Action contained an error in that it did not note the status of claims 9 and 11. These claims were previously rejected under a double patenting rejection. Once the applicant filed a Terminal Disclaimer these claims should have then been indicated as being objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in

Art Unit: 3673

independent form including all of the limitations of the base claim and any intervening claims.

The examiner neglected to include the above statement in the Final Office Action. Since the applicant has filed a timely Terminal Disclaimer and included the contents of claims 9 and 11 into claim 5 in effect these claims have been rewritten into independent form with the only grounds of rejection being removed from consideration.
